CHIEF OFFICER's MESSAGE

2010 STATE URBAN CHAMPIONSHIP – MILDURA

Welcome to the State Urban Championships.

This is the ninth time that Mildura has hosted this event and I am very excited that we are once again able to gather in this wonderful city for what I know will be three days of great competition.

Seventy-three teams will be taking part this year and I would like to extend a very warm welcome to every participant. This year we are joined by teams from brigades at Bassendean, Harvey, South Kalgoorlie and South Hedland in Western Australia, and combined teams Deniliquin/Hay and the Angels from New South Wales. I know you will all represent your States and agencies with distinction.

Those of us who will be cheering from the sidelines are going to witness some exciting contests over the next few days. I am always delighted at the level of skill demonstrated at these Championships, but I think the greatest attribute that will be on display is teamwork.

We can't function in our brigades without it and it is the single most important skill that enhances our day-to-day firefighting activities.

The past 12 months have presented many challenges for fire services around the country but it is this teamwork and support for our colleagues, that have enabled our agencies to face these challenges and emerge stronger.

I urge you all to continue to demonstrate that support for each other this weekend by looking out for one another and staying safe while competing and enjoying your time in Mildura. Safety is our main priority when we are on a fireground - it is just as important when we are training or competing.

Good luck to you all.

RUSSELL REES AFSM
Chief Officer, CFA

VOLUNTEER FIRE BRIGADES VICTORIA

VICE PRESIDENT URBAN

On behalf of Volunteer Fire Brigades Victoria, I am pleased to welcome you all to the 127th State Urban Championship in Mildura.

Congratulations to the Mildura Brigade and its Championship Committee for the excellent preparations they have made to ensure a successful Championship - this is the Ninth time that Mildura has hosted these Championships.

To CFA Chairman Kerry Murphy PSM AFSM, the CFA Board, CEO Mick Bourke, Chief Officer Russell Rees AFSM and the Mechanical Staff and Tower Overseers, we thank you all for your continued support and commitment to our firefighters.

Our Championships are important not only for the camaraderie that is developed among firefighters throughout the service and interstate, but also for the skills, teamwork and discipline to head us into the future.

Thanks to all the officials who give their time and expertise to ensure the competition runs smoothly each day.

On behalf of VFBV, I wish all Brigades and competitors good luck and enjoy the weekend.

PETER WHITE AFSM
Vice President Urban, VFBV

PROGRAM OF EVENTS

SATURDAY, MARCH 6th

COMMENCING AT 0900 HOURS (Roll call 0830 hours)

- Echelon Review and Official Opening
- Event 1 - Discipline Contest (Order of Sections – C. A.B.)
- Event 2 - Ladder Race - One Competitor
- Event 3 - B Section Pumper and Ladder – Five Competitors
- Event 4 - C Section Marshall - One Competitor
- Event 5 - A Section Hose and Ladder Eights
- Event 6 - B Section Marshall - One Competitor
- Event 7 - C Section Hose and Reel Fours
- Event 8 - A Section Marshall - One Competitor
- Event 9 - B Section Hose and Reel Sixes

Torchlight Procession - March off at 2030 hours

SUNDAY, MARCH 7th

COMMENCING AT 0815 HOURS (Roll call 0800 hours)

- Event 10 - Hydrant Race - One Competitor
- Event 11 - C Section Pumper and Ladder – Five Competitors
- Event 12 - A Section Marshall - Two Competitors
- Event 13 - B Section Hose and Ladder Eights
- Event 14 - C Section Marshall - Two Competitors
- Event 15 - A Section Hose and Reel Eights
- Event 16 - B Section Marshall - Two Competitors
- Event 17 - C Section Hose and Reel Sixes
- Event 18 - A Section Hose, Hydrant and Pumper
- Event 19 - B Section Y Coupling and Ladder Eights
- Event 20 - C Section Hose, Hydrant and Pumper
- Event 21 - A Section Y Coupling and Ladder Eights
- Event 22 - B Section Hose, Hydrant and Pumper
- Event 23 - C Section Y Coupling and Ladder Eights

MONDAY, MARCH 8th

COMMENCING AT 0815 HOURS (Roll call 0800 hours)

- Event 24 - A Section Pumper and Ladder – Five Competitors
- Event 25 - B Section Y Coupling - Four Competitors
- Event 26 - C Section Hose and Ladder Fives
- Event 27 - A Section Y Coupling - Four Competitors
- Event 28 - B Section Hose and Reel Eights
- Event 29 - C Section Y Coupling - Four Competitors
- Event 30 - A Section Hose and Reel Sixes
- Event 31 - Champion Fours

NOTICE TO COACHES:

(a) Testing of Reels and Hydrants

Equipment shall be tested, weighed and suitably marked or officially recorded, on Friday between 1500 and 1700 hours, Saturday between 0700 and 0815 hours, and Sunday and Monday between 0730 and 0800 hours, at the following locations subject to alteration by the Governing Body:

Main Track – Hydrants; Back Caps.

Testing Station (roll on area) – Branches; Dummies; Ladder Harness; Reels; ‘Y’ piece.

Couplings on all hoses should be presented for inspection on the Friday afternoon or Saturday morning at the Testing Station, to overcome any last minute repairs or re-coupling at the roll-on area.

All the above equipment may be subject to random checks during the Championships.

(b) Timing of Water

The timing of the water will take place prior to 0815 hours on each day of the Championships. The times to be announced following each test.

(c) Presentation of Trophies

Presentation of Aggregate Trophies to take place on main track at conclusion of final event.

Presentation of station trophies to take place on the main track as near as possible to the conclusion of the event.

THE PRACTICAL ASPECTS OF URBAN FIRE BRIGADE COMPETITION EVENTS

The events which you will witness during these Championships have a practical use and an original purpose background.

While the word Championships was substituted in 1986 for Demonstrations - older firemen still refer to the Annual Championships as the State "Demo".

In earlier days Volunteer Fire Brigades competed against each other using the exact same equipment in competitions as they used for fighting fires in their allotted fire districts. However, over the years certain advantages have been taken to adapt equipment more suited for competition use. This has been done to the extent where it has become necessary to introduce rules from time to time, to set minimum weights, sizes and safety standards.

The firefighters of today, when firefighting, use motorised appliances instead of hand pulled hose reels; hoses are equipped with instantaneous couplings instead of screw-thread and boots are worn instead of sand shoes (although long trousers that are essential apparel at fires, are still insisted upon), but the events of today are still designed to train firefighters in many aspects which are of benefit to them in their fire fighting roles - speed, co-ordination, and above all, team work. These are prime requisites for a good competition team as well as an efficient firefighting group.

A little imagination is needed to appreciate the practical aspects of the events:

THE START

Starting a distance behind the hose reel as if in station quarters or home.

STARTING DEVICE

Simulates the station siren sounding. When the starting tone sounds the team races to the hose cart and proceeds down the "street" to the "fire".

HYDRANT COMPETITOR

Plucks the hydrant from the hose cart and runs ahead to the hydrant plug in the "street".

DUMMY HOSE

Hose is stowed on fire engines coupled together and when laid out at a fire the lengths are uncoupled at the required point and the hydrant or branch (nozzle) is connected to that point. The dummy length is connected to the hose to be used in the event to ensure that the uncoupling action is taken.

THE DISCS

These represent the actual fire.

The purpose of all the wet events is to get water on the "fire". The discs are electronically equipped and separate results to a closeness of 100th of a second.

"Dry" events such as the straight ladder, hydrant and marshall events etc. are events that have been devised to prove the skill of the members in the use of particular equipment.

It is the "wet" events that a Brigade works to situations that have been developed over the years with actual fire situations in mind.

HOSE & REEL FOURS (CHAMPION FOURS)

The simplest of wet events, yet very effective and fast. The team proceeds to the fire, shifts hydrant (firefighter terminology for inserting the hydrant into the plug), lays out one line of hose, attaches branch and hits the "fire".

The time is taken from the sound of the gun, which starts the electronic stop watches, to the water hitting the disc, the force of which stops the watches.

Non-compliance with rules, loose hydrant or branches, under length or burst hose, disqualifies a Brigade and their result is recorded as a “miss”.

HOSE AND REEL SIXES AND EIGHTS

These events involve 6 or 8 competitors and simulates a situation of a fire which requires two lines of hose.

The first line is laid out and the disc hit, a second line is run from the reel to the hydrant and the same “fire” hit. The time is taken when the second water stream hits the disc and stops the watch. A light will show above the disc when it is hit first. Failure of the water force to bring the light on at the first hit results in a “miss”.

HOSE AND LADDER FIVES

The situation here is the same as the Hose and Reel Fours except that an extra competitor is included to assist the “ladder competitor” with the weight of the hose and the disc is on top of the ladder stand.

The simulation here is a fire on the first floor of a building.

HOSE AND LADDER EIGHTS

A similar event to the Hose and Ladder Fives but in this instance the ladder is to be raised and placed in position for the ladder competitor to mount.

This event requires split second timing. There is no room for errors as can be seen by the number of ladder competitors who don't make the top.

A “miss” can happen if the ladder competitor is on his knees when the disc is hit - whoever heard of a firefighter saying his prayers when fighting a fire, he's too busy, the prayer usually comes later.

DISABLED HOSE AND REEL SIXES

The word disabled does not apply to the competitors running, although it is a somewhat gruelling event; it applies to a simulated burst (or disabled) hose.

The team runs out one line of hose comprising two lengths. The first length “bursts” and is replaced by another length. The disc requires two hits, the first bringing on the light and the second stopping the watches.

Y COUPLING AND LADDER EIGHTS

A “fire” breaks out in three places, two on the ground and one, on the first storey.

The team's task is to lay out a line of three lengths of hose, break the first coupling, attach branch and hit the first disc, reconnect the hose between the first and second lengths, break the coupling between the second and third lengths, attach another branch and hit the second “fire”. Then a Y piece is inserted between the first and second length and the third length is attached to the remaining Y piece outlet. The third length with branch attached is then taken up the ladder to hit the disc.

Quite a complicated event but all completed in around half a minute.

MEASURE

Lengths of hose used in events must not be less than 27.432 metres, measured from face to face of male and female coupling. A short hose can result in quicker times but it will result in disqualification.

**EVENT No. 1
DISCIPLINE CONTEST
SATURDAY, MARCH 6th**

ELEVENTH STREET RECREATION RESERVE, MILDURA

Secretary George Goodwin AFSM Perpetual Trophy donated by Carrum Fire Brigade

0830 hours – Line Up for Roll Call and the Opening Ceremony:

Echelon Brigades - at their designated Echelon Movement marker.

All other brigades in file behind the Echelon Movement brigades with A Section brigades to the right hand side when viewed from the Dais, followed by B Section and C Section brigades. Brigades to line up in program order within their Sections.

Judging: All Brigades, including those marching in the Echelon Movement, will be inspected in their Sections prior to stepping off in the Discipline Contest.

Any brigade not ready when called will be disqualified.

TORCHLIGHT PROCESSION
SATURDAY, MARCH 6th

Torchlight Procession prizes gift of Country Fire Authority, will be awarded to the brigades gaining first, second and third places over the whole procession, all brigades competing on an equal basis.

FIRST	POINTS
SECOND	POINTS
THIRD	POINTS

Brigades will assemble for Roll Call in their respective groupings, at the intersection of Pine Avenue and Ninth Street by 2000 hours. Commanders are requested to ensure they are familiar with the assembly area. Brigades to march in the order as shown below.

Each group of brigades will be headed by a CFA vehicle.

The Procession will conclude at the intersection of Pine Avenue and Seventh Street. Brigades are requested to assist in clearing the break off area as quickly and effectively as possible.

Senior Officers of the Country Fire Authority and Officers of the Association will be in attendance at the main control point at the intersection of Pine Avenue and Ninth Street from 1945 hours. Officers will also be situated at control points at the head of each group.

Brigades should note that name plates and kerosene for torches are at the Mildura Fire Station and should be collected prior to 1945 hours.

Please note, torches are to be extinguished and any unused kerosene emptied into the drums provided at the finish of the Procession.
